LAKESHORE POOLS & HOT TUBS

FEATURES		LEEP	300 HYBRID	500 HYBRID	700 HYBRID	700 PREMIUM
BEACHCOMBER GUARANTEE Peace of mind that your new hot tub will perform as promised is backed by an industry exclusive Guarantee, and not a Limited Warranty!		✓	✓	✓	✓	✓
PERMA-SEAL™ FOUNDATION The full thermoplastics foundation encapsulating the bottom of the hot tub seals out ground elements like water, moisture and air, and prevents critter penetration.		✓	✓	✓	✓	✓
ALL-ACTIVE SEATING All hot tub hydro-massage seats operate at the same time with the press of a single button, allowing for a shared hydrotherapy.		✓	✓	✓	✓	✓
UL CERTIFIED HEATSHIELD™ COVER The HEATSHIELD™ Cover creates a vacuum seal around the entire perimeter of the hot tub lip to prevent heat loss.		✓	✓	✓	✓	✓
BODY CONTOURED ERGONOMIC DESIGN Hand-sculpted, ergonomically designed seating to support the contours of your body for comfort and relaxation.		✓	✓	✓	✓	✓
ALL-MOTION HYDROTHERAPY Full body coverage delivering pressurized streams that pulsate, oscillate and knead, with the fusion of injected air and water to actively massage targeted areas for pain relief and relaxation.		✓	✓	✓	✓	✓
ENERGY SAVER MANAGEMENT SYSTEM Complex network of energy management functions enabling the world's lowest energy consuming hot tubs with Digital Temperature Control.		✓	✓	✓	✓	✓
BRITEWERX™ FLEXJETS TRIM This is a bright, chromed facial trim ring on the face of the FlexJet. Britewerx is designed to give extra beauty, sparkle and ambience to the hot tub whether empty or filled. Britewerx fixtures allow you to choose the number of jets you want.		✓	✓	✓	✓	✓
EVERLITE LED MOOD LIGHTING Beachcomber's main lighting system for underwater use. This light is made with MicroStar Technology to produce 256 million different shades of digital color. EverLite can be frozen in any shade or color that the bather desires.		✓	✓	✓	✓	✓

LAKESHORE POOLS & HOT TUBS

FEATURES		LEEP	300 HYBRID	500 HYBRID	700 HYBRID	700 PREMIUM
FLEXJET CUSTOMIZATION A massage is unique experience to us all and since we are all different, we will have individual preferences for the kind of pressure and motion we desire. Hot tubs often come with a predetermined set of jets which you have no choice in before or after you have received the tub. We offer the FlexJet system gives the user the ability to customize the hot tub massage. You can swap jets for FREE and choose different combinations within the first 30 days after receiving and using your hot tub so you can test which ones are best for you to dial in the perfect massage.		✓	✓	✓	✓	✓
ECO3WALL 100% CAVITY SEALED INSULATION UPGRADE The 100% Cavity-Filled Foam Insulation system seals the entire hot tub cavity for unparalleled energy efficiency.		✓	●	●	●	●
INTERNAL ECO-PAK™ The fully serviceable Internal Eco-Pak system uses the lowest amount of horsepower possible to efficiently achieve the maximum flow for ultimate full body massage.		✓	●	●	●	●
ECO4WALL™ 100% CAVITY FILLED INSULATION UPGRADE Our 100% Cavity Filled Foam Insulation system seals the entire hot tub cavity for unparalleled energy efficiency.		●	✓	✓	✓	✓
ALL-WEATHER SAFEAXISS STEPS Made with non-slip surfacing, the SAFEAXISS™ Steps allow the user to access the hot tub from any angle with ease, while multiple tiers provide easy entry and exit. The steps are also insulated, and serve as a protective cover for the Energy Saver Management System.		●	✓	✓	✓	✓
CAB FORWARD ENGINEERED PAK SYSTEM Patented design and technology exterior of the hot tub in its cab forward construction, provides easy access for maintenance and maximum energy savings. The hydrodynamics in design reduces horsepower without sacrificing performance.		●	✓	✓	✓	✓
HUSH PUMP SYSTEM Beachcomber's Hush Pump System™, quietly working in conjunction with our Energy Saver Management System and MICROFILTER™, effortlessly heats and cleans your hot tub water keeping it fresh and clear.		●	✓	✓	✓	✓
PREMIUM ACURALUX ACRYLIC Beachcomber's thermoplastic, cast acrylic finish that is vacuum formed to make the main shell of the hot tub. This finish comes standard in a granite texture, with available Metallic finer finishes.		●	✓	✓	✓	✓
CLEARTECH UVC READY Beachcomber's factory-installed system based on Ultra-Violet light technology to purify hot tub water. The ClearTech system continuously produces distilled water which is pumped back into the hot tub, lowering the demand for chlorine or bromine.		●	✓	✓	✓	✓

FEATURES		LEEP	300 HYBRID	500 HYBRID	700 HYBRID	700 PREMIUM
QSS SOUND SYSTEM 4.1 A resonating option for audiophiles, this QSS 4.1 features Smart Audio Control includes 4x audio transducers that set the stage for an immersive multi-sensory experience as well as 2x deep base subwoofers which synthesizes liquid sound technology into music you can feel. *only available in the SLB series.		●	●	●	●	●
LED LIT CONTROLS Topside LED Air Lit Controls provides a beautifully integrated illumination of all the massage controls and enhanced ambient lighting synced with the hot tub's multicoloured light show.		●	●	●	●	●
CLEARTECH UVC SYSTEM The ClearTech UVC System Sterilizes 99.9%of bacteria and viruses in your hot tub water by using the same powerful UV technology found in water treatment plants and hospitals.		●	●	●	●	●
CLEARBLUE IONIZER SYSTEM (RECOMMENDED) The ClearBlue Ionizer is the best way to lower maintenance and reduce chemicals in your hot tub making it our most popular hot tub option. It uses natural zinc, copper and silver to control bacteria so you can use much less chlorine or bromine than you could in a traditional hot tub. Owners and family members of Lakeshore Pools all use this system so it's easy to keep hot tub water looking crystal clear with minimal effort.		●	●	●	●	●
